Yasir Rizwan (CTO & EVP of Professional Services) has been leading the innovative and technological vision of Txxel since 2013. He joined the company during its hyper-growth phase. He took the company to the cusp of industry stardom through his leadership. In Txxel, he is known as a turn-around expert who catapults team performance. Yasir has a strong track record of catalyzing IT transformation and providing strategic vision. Seasoned in planning complex implementations, he has propelled several high-volume and large-scale projects.

As a mentor and visionary, he loves being a navigator for his team, especially when empowering young talent. He has comprehensive experience directing talented teams and distilling complex challenges into manageable tasks. His peers regard him for fostering a positive work culture. Bringing his 27+ years of industry experience, he is a juggernaut of creating an equilibrium between corporate and IT strategy.

Yasir is a brilliant conversationalist, and networking is his second nature. He highly appreciates peer-to-peer perspective. Thanks to his extensive network, he is often the first one in the room who is well-versed in new trends.
